

April 16, 1986

TO: Noncoal File
FROM: Susan C. Linner, ^{SL} Reclamation Biologist/ Permit Supervisor
RE: Site Inspection, DOE/O21/004, Iron County, Utah

On April 8, 1986 members of the permit staff's "B" team were in the area of the Nova Claims and attempted to locate the site. A dirt track going into the area was located and the hillside where the DOE should have been located was scanned with binoculars. No evidence of mining activity could be seen.
